### 2014 Pike River Revival

Ontario's Sunset Country shared Pete Maina, Professional Angler and Muskie Expert's photo. Monster Canadian fish. Not many details, but angler is 84 years old and the fish is 60 inches long. The way the photo is taken likely doesn't do the size any justice; really big fish!

# Fishing Report

Courtesy of: Lake Michigan Angler

Cold water has scattered fish from the beach out to three hundred feet of water. Shore anglers are reporting mixed bags of brown trout, salmon and even lake trout. The best baits have been tube jigs, Lil' Cleos, and Flicker Shad. Boat fishermen are catching fish on small spoons like Moonshine Walleye Spoons, Stinger Scorpions, and Mini Silver Streaks. The shallow bite is best early in the morning while the sun is still low. Many anglers are heading out deep for steelhead after the shallow bite dies.

# KSFCA Rearing Pond Maintenance Projects 2015 & Beyond...

In the near future the following changes will be completed.

- 1) The old wood gate on the East end of Section #1 will be removed.
- 2) It will be replaced with a concrete wall and re-bar joining it to the existing walls. There will be a 18" x 18" opening in the bottom to allow cleaning of the pond.
- 3) An 18" x 18" stainless steel gate will cover the opening and have the ability to be raised as required.
- 4) Water stops will be installed as necessary. The work will be done by BANE NELSON, INC., who has been a great assistance in the past.

Other projects to the pond include:

Install new roofing on the north shed -we have a line on a supplier of the shingles but we need some one to install them.

Paint the fence surrounding the pond -this has been talked about but at this time has not become a reality.

Later this fall the pond water systems will need to be winterized. Anyone want to help, let us know.

**Fish Caught!!!**

Story & Photo By: Dennis Jantzen

Bonny and I left the Port of Kenosha at 4 am and returned at 8:45 am, on Aug. 4th. We ended up with five fish. The fish were taken with a combination of spoons and flies. We tried to keep the trolling speed at the down rigger ball at 2.8 mph. I attribute much of the success on the last several trips to the decision to increase the trolling speed from my normal trolling speed of 2.25 mph to 2.8.

Due to weather related contest/fish fry cancellations, the Board will be holding the next and second of the year contest/fish fry on Sunday, September 20th. While the contest is weather dependant, the fish fry will be held regardless.

We are looking forward to the shared desserts and salads that we have all missed this season. For those who have not yet attended a KSFCA fish fry, they are held on contest day at 11:30 A.M. on the patio above the fish cleaning station, by the boat ramps at 45th Street & 5th Avenue (by Simmons Island).

See you there!!! Lynn Davis

*The Kenosha Sport fishing and Conservation Association is a non-profit organization dedicated to the protection and proper utilization of the Great Lakes resources. Established in 1969 by local family fisherman, we continue to focus on conservation of the Great Lakes. For over 40 years the K.S.F.C.A. has worked to support our community and the Great Lakes through various activities and educational programs. Some current examples include: kids fishing programs, fly tying classes, Pike river clean-up efforts, and stocking Lake Michigan with over 40,000 Chinook salmon annually.*

*If you would like to support these activities, please contact us by phone, mail, or email. We welcome anyone interested in becoming a member. If you are not interested in becoming a member, but would still like to support these important activities in our community, we do accept financial donations.*
