## Scales & Tales

Gentlemen:

As you know a death occurred in the Manitowoc Area recently. It is important that action be taken immediately to address the trap net issue which has been an issue for sport fishermen. The Northeast Wisconsin Great Lakes Sport Fishermen have warned over the last years that accidents and deaths can occur. Unfortunately a death has occurred. The Wisconsin Federation of Sport Fishing Clubs must become actively involved to press for changes in the summer trap net issue. As a Federation changes must be made to insure the safety of all sport fishermen by removing these nets during the summer months. Even though all club areas are not affected, the Federation must be firm and assist all member clubs to make positive changes to make the Lake safe. Attached is information which can help lead to these changes. Petition your clubs, contact your local representatives. Please contact me by phone or email if you need further information.

Regards, Thom Gulash, Secretary WFGLSFC

“United We Stand”

Dear Sec. Franks, Mr. Staggs, Fisheries Team, and WDNR Board,

We, the Sport Fishermen of Lake Michigan are again requesting the Wisconsin Department of Natural Resources close the Commercial Whitefish Trap Net Season in Zone 3 by “**Emergency Order**” and then make permanent rules to keep the trap net season closed from June 1<sup>st</sup> - August 31<sup>st</sup>, to remove the “**User Conflict**”. This is in response to the tragedy that occurred on Friday June 25<sup>th</sup>, which resulted in the untimely death of Mr. Charles Koenig, when his boat became entangled in whitefish trap nets. We all hoped we never would have to say, “ **We Told You This Was Going To Happen**”, but we did tell you – many, many times, but no one listened. These deadly hazards are still out there and another sinking or fatality will happen because of these nets. We do not know when, but another accident will happen unless you take immediate action.

## WI anglers press for closure of trap net fishing on zone 3

Commercial gear blamed for fatal boat accident (article from the GLBR)

Wisconsin Great Lakes Sport Fishermen are petitioning the state's Department of Natural Resources for an Emergency Order to close all trap net fishing in Lake Michigan Zone 3, for the months of June, July and August, the high season of recreational fishing in the area. Wisconsin anglers began circulating a petition to force the closure at the NEW/GLSF Derby over the 4th of July weekend.

This action is partly in response to the tragedy that occurred on Friday, June 25, on Lake Michigan just three miles east of Sheboygan, and which resulted in the untimely death of Charles Koenig of Cleveland, WI. "Entanglement of sport fishing gear in commercial whitefish trap nets set in Lake Michigan on June 25 was directly responsible for this tragedy," say Wisconsin Great Lakes Sport Fishermen.

While all information regarding the incident is very sparse due to the ongoing investigation, anglers and facts state it is fairly certain the incident involved entanglement with commercial trap net gear causing the 20' sport fishing boat to overturn and

There has been a running battle over commercial trap net issues for over twenty years. Back in 1988 FH-40-88 suggested a proposed closure of June 1, but the date was later changed to a June 14th fishing closure and included a clause that nets could be tied off and not removed from the water until June 28th. In 1989 by WDNR order, commercial whitefish trap net fishing was banned in ALL of Zone 3 from June 1 to August 31 due to "User Conflict and Safety Issues." Later, in 1995 Trap Net Fishing in Zone 3 was extended to June 28 and all nets still had to be out of the water by that date. With the amendment of FH 40-88, the June 28 fishing closure remained in effect until 2004 when the Summer Trapnet Season in Zone 3 was extended to include the months of July and August, in two restricted areas, one at Sheboygan and the other at Manitowoc and Two Rivers. In 2005 over tremendous opposition from Sport Fishermen, by DNR Board Order FH-57-04 the Two Rivers/Manitowoc area was moved from North of Two Rivers to an area directly between Two Rivers and Manitowoc and has remained so to the present time.

Bob Deangalis  
Owner of Harborside  
Bait & Tackle

Fishing has been up and down. When I was in Minocqua they were killing the fish back here. The week of the fourth, and the week after, (11th) were great here on the big lake. Not only were the boats getting limits of perch, and trout and salmon, but the shore fisherman were killing the fish too. Chinnooks, rainbows, cohos, and browns were all being caught by the shore guys because of the steady west winds blowing out the warm water. This week, starting on the weekend, the winds shifted and the fishing slowed. Most guys that did good in Salmon-a-Rama, worked close most of the week usually in around 40ft. of water. They all said that the amount of junk that was in the water, (weeds, sticks branches, trees, and trash) made the fishing tough. Most of the fish came on some kind of lead core set-up. And, from what I heard, J-plugs were what was being pulled on the end of those lines. Travis Becker, and Jerry guest did very well in the tournament as usual. Congratulations to them. Also Scotty Haebig, and Steve Mueller were right in there many of the days. I'm sure everyone heard about the 41.8lb. Brown that was caught during the contest. I didn't get a chance to see it myself, but many of my friends said it more resembled a pig than a fish.

Today, the water is rough which actually gives me enough time to sit down. I always apologize for not keeping up this blog, so you're all probably tired of that. But at this time of year I'm busier than a one legged man at an...., well you know the rest. I'm not complaining! I need the business, but it would just be nice if it was spread out a little more throughout the year.

Speaking of business, I'm having a contest in case you missed the ad in the Kenosha News. Apparently everybody did because very few fish have come in. Basically it goes like this: the biggest fish in the following categories will win a rod and reel combo that matches the type of fish. (cont. page 5)

## 7 Wis fishing records fall so far in 2010

MADISON – State fishing records are falling fast as anglers have been hauling in a boatload of true lunkers. By June 1, seven new state fish records had been confirmed in 2010 in the "alternate methods" category. The fish ranged from 4 lbs. to more than 200, and the longest stretched more than 7 ft. long. Six of the seven were taken with a bow and arrow, one with a spear, and one new record was only on the books for a month before it was eclipsed.

"Bowfishing seems to be growing in popularity and our record books are starting to reflect that trend," says Karl Scheidegger, DNR records

coordinator. "More people are learning about the alternate methods category and seem to be targeting those records."

The parade of record fish, and the people who landed them, are listed with the most recent first

► Taylor Hanson of New Lisbon shot a 4.2 lb., 29" short nose gar from the Wisconsin River in Grant County,  
► Lance Lyga of Independence shot a 3.8 lb., 19" long spotted sucker, from the Mississippi River in Trempealeau County,

► Nathaniel Fritsch of Ettrick shot a 28.13 lb., 35" long sheepshead, from the Mississippi River in Trempealeau County,

► Kyle Lakey of Trempealeau shot a 29.11 lb., 33.15" smallmouth buffalo, from the Trempealeau River in Trempealeau County,

► Crae Wilke of Hortonville shot a 10.15 lb., 26.6" silver red horse from the Weyauwega Mill Pond,

► Ron Grishaber of Appleton speared a 212.3 lb. lake sturgeon that stretched 84.25" long on Feb. 13, 2010, opening day of the Lake Winnebago lake sturgeon spearing season.

# KSFCA Contest Rules

## Monthly Contest

Angler must be a regular member of the Kenosha Sports Fishing and Conservation Association.

Angler must have joined the Association at least two days prior to entering a fish in any KSFCA sanctioned contest. Unless clearly specified otherwise.

All fish must be caught in Lake Michigan (as defined in DNR regulations)

Controversy shall be settled by the Contest Committee. The committee will act on any protest, filed in writing, by any KSFCA member and given to any member of the Contest committee. But will provide interpretations to a rule or controversy as information to the member. Resolution of a controversy is the decision of the Contest Committee, whose decision will be final.

All fish registered for Any KSFCA contest must be a minimum of 16" in length. All fish must be registered at Harborside Bait and Tackle. Monthly contest starts first of May and ends in September's end. Each month is a new month. Fish must be registered that month.

A fish may be held overnight for weigh-in the next day, provided that following day is in the same month.

Awards for the top three fish of each species will be awarded on the next month's meeting.

Points are awarded for the top three fish. Which is totaled at the end of the year and at that time, points are tabulated.

First = 5 points    Second = 3 points    Third = 2 points  
 \$20.00            \$15.00            \$10.00

Based on points, the winner receives the Phil Sanders Master Angler Award.

**Rules may be changed once the contest committee has deemed necessary.**

## Monthly Outing Rules

- **5:30 A.M.** Start, entrants may call in no later than 6:00 A.M. over the marine radio on **channel 8**. 1/2 hr. start run time allowed.
- Members and non members must register at **Harborside Bait & Tackle Shop**.
- Contestants may use up to 9 rods per boat.
- Weigh in will be at **11.00 A.M.** at the fish cleaning station.
- Non member fee's will be \$30.00 and will include a membership for the remainder of the year. \$5.00 for Big Fish.
- Member's fee will be \$20.00 and \$5.00 for Big Fish.
- Total weight of 10 fish will be used to place.
- All Wisconsin regulations apply. Any citations issued by the Coast Guard or DNR will cause automatic disqualification.
- Prizes to be awarded at the KSFCA monthly meeting at the Moose Club.
- The club uses Marine channel 8.

Open 7 days a week

## 5 States sue to keep Asian Carp Out

(article from the Chicago Tribune)

Michigan and four other Great Lakes states have filed a new round of legal action against the U.S. Army Corps of Engineers and the Chicago Water Reclamation District to step up efforts to keep Asian carp out of Lake Michigan.

In a case filed today in the U.S. District Court in Northern Illinois, attorneys general from Michigan, Wisconsin, Ohio, Minnesota and Pennsylvania are again fighting to close Chicago-area shipping, eliminating the most direct path for Asian carp to enter the Great Lakes. The case is similar to those twice rejected by the U.S. Supreme Court.

"President Obama and the Army Corps of Engineers have failed to fight Asian carp aggressively," said Michigan Attorney General Mike Cox, a Republican candidate for governor. "Asian carp will kill jobs and ruin our way of life. We cannot afford more bureaucratic delays -- emergency action must be taken to protect the Great Lakes."

Cox and fellow lawmakers from around the Great Lakes say the urgency of stopping the invasive species has increased with the discovery of a live fish within miles of Lake Michigan's border. The lawsuit asks the court to take immediate action by forcing the Army Corps and water district to:

- Use nets, other physical barriers and fish poisons at strategic locations to block or kill Asian carp that have already swam through the O'Brien Lock in the Calumet-Sag Channel;
- Install and maintain block nets and other physical barriers in the Little Calumet River, where no barrier of any kind currently exists; Temporarily close sluice gates at the O'Brien Lock, the Chicago River Controlling Works, and the Wilmette Pumping Station, except as needed to protect public health and safety;
- Install and maintain screens on all sluice gates to reduce the risk of fish passing through when the gates are open;
- Accelerate efforts to complete a feasibility study of a permanent hydrological separation of the Great Lakes Basin from the Mississippi River within the next 18 months, with reports at six and 12 months.

-- Joel Hood

(cont. from page 3)

For instance, the biggest panfish will win an ultralite combo. The biggest bass/walleye will win a medium sized combo. The biggest Northern or Muskie will win a heavy combo. And, the biggest salmon/trout will win a corresponding combo. It runs through September, so get out there and bring me some fish. All fish will be weighed, and photographed here for our board, as well as measured, and the tie breaker will be the length.

As I said fishing has slowed here on the big lake. I've heard they are doing well inland-especially Delavan. Everything permitting I want to head there myself. As for my fishing season it has mostly been non-existent. When I do get a chance to go, I strike out. In approximately 20hrs. of casting on my favorite Muskie haunt in Minocqua I only managed two swipes at my bucktail. One actually had it in his mouth for a millisecond, but then he disappeared.

That's enough talking for now, get out there and get some fish.

Many hours spent on the lake the week of Salmon-O-Rama. A 41 pound plus Brown was caught that pretty well nailed the grand prize. Sure Roger Hellen had his lumps in his throat full bringing that to the net. Plus I am sure that will make the state record.

### Canning Salmon

(article from the GLA)

Cut the fish into 1-2 inch chunks and pack them TIGHTLY into the jars. Leave about 1 inch off head space in the jars, put on a little salt and pepper and install the lid (snug not tight)

Then put them in the canner and bring it to 10 lbs of pressure for 90 minutes. After that, remove canner and let cool, lids should seal (pop). Also I smoked a batch this year. Same process after smoking but only cook at 10lbs pressure for 30 minutes as the fish is all ready cooked from the smoking process. Just opened a jar of this last week-end and YUMMY.

I think all my fish will be smoked next year before canning.

"Better watch it ,Alice. You're reaching lunker size"

### June's Monthly Results

King	Leroy Fox	16lb.
	Steve Reuter	16 lb.
	Dave Gehrke	14lb. 2 oz.
Coho	Steve Reuter	7 lb. 6 oz.
	Steve Reuter	7 lb. 2 oz.
	Jack Johnson	6 lb. 4 oz.
Rainbow	Jack Johnson	9 lb. 2 oz.

# KENOSHA SPORTFISHING AND CONSERVATION

P.O. Box 746 Kenosha, WI 53144

*Helping Everyone Enjoy Fishing!*

## Next Meeting:

August 2nd and September 6th. At the Moose Lodge at 7:00 P.M.

There will be no guest speakers in August or September as of this printing.

August 8th is the club contest and fish fry. See rules on page four. Hopefully the heat slows down and the fishing picks up!
